01. Inside our brand

In this section, we outline the building blocks of the Kigen brand, including what we stand for, what sets us apart, why we choose the words we use and how we show up in the world.

At Kigen, we're making the future of secure connectivity simple. **As simple as it can be.** Together with our partners and customers we are unlocking new opportunity as the SIM evolves.

For over 15 years we've partnered with customers to unlock new growth with new ways of securing connectivity.

We are willing to rethinking the future, believe in the art of the possible and to set in motion transformation technology. Our vision is a world where every device can connect securely and reliably.

Please use "Kigen" as an adjective followed by a description of the services we offer. "Kigen" should not be used as a verb, plural or possessive.

Why does the industry need Kigen?

Challenge

SIM is evolving and brings a tectonic shift in security foundations. Our partners and customers need to navigate uncomfortable choices as the market disrupts with new demands driven by connected lifestyles.

Solution

Kigen offers a path forward. In ever evolving technology world, we are the trustworthy path that connects to opportunity.

Meaning 'origin' in Japanese, Kigen leads to an era of secure by design connected things.

Result

With Kigen, business have the power to get closer to their customers and offer security through SIM, eSIM, iSIM as they choose.

Why Kigen?

Security is a pillar of modern society. Our customers and partners work with us for the **aspiration, confidence and trust** our way of working brings for the avoidance of risk in their pivotal moments.

We found inspiration in the Japanese for origin or 'genesis', as we want a world where all connected things and their data flows are authenticated at the very get-go.

We bring ease for customers, to see the flow to a world otherwise wary of change.

We typically pronounce it with emphasis on the first syllable: *kee-gun*. But we're not prescriptive about it. We welcome other pronunciations too.

Kigen brand values and personality

Empathy

Curiosity. Understanding.

We are willing to look at the world sideways, engage and learn. We are thoughtful, respectful and purposeful.

Competent

Reliable. Authentic.

We are confident, live the principles of making things simple. Spell out, drop the jargon – willing to cultivate the trust to help move things forward.

Thriving

Daring. Imaginative

We are revelling in the opportunity to do our part in crafting a secure future and supporting others in doing so. We are courteous however bold our vision.

Our brand reflects our culture and values as a company and is an external expression of us. So we live by

Be excellent to all.

The key to sounding like Kigen is to speak directly and simply. Show we like the people we are speaking to, and proud of what we are talking about.

- Keep it clear and concise
- Confident but not arrogant
- Intelligent but speaking to equals
- Helpful but not stifling

02. Logo guidelines

In this section, we outline the best practices for use of the Kigen brand assets.

Logo

Horizontal Lockup

Version 1

Version 2, with tag line (limited use only)

Logo

Vertical Lockup

A vertical lockup can be used when the horizontal lockup doesn't fit the space. The Kigen 'Lock' can also be used as standalone without the 'Kigen' text. Single colors logos like white and black should only be used when color usage is limited e.g. one color print.

Exclusion Zone

The exclusion zone protects our logo by giving it a minimum amount of breathing room. This is equal to the 'K' height of the Kigen logo.

Logo

Color Usage

Different color variations of the logo should be used on different backgrounds. Use the following as a guide only.

Full colour, white background
Blue, gradient blue

Full colour, black background
White, gradient blue

Single colour, white background

Color Usage- Images

Similar principles should be considered when placing logo over images.

Dark image - when contrast is high enough for brand colours
White, gradient blue

Light image - when contrast is high enough for brand colours
Blue, gradient blue

Image - when contrast is too low for brand colours
White

Typography

Montserrat is the primary Kigen brand typeface and should be used across all placements. Montserrat Regular is primarily used as body copy across print and digital. Montserrat Light or Extra Light is recommended for headings, while Montserrat Bold is recommended for secondary copy lines such as sub-headings.
