

At Kigen, we are making the future of securing connectivity simple. As simple as can be. Together with our partners and customers, we are at the forefront of unlocking a new era of secure IoT as Integrated SIM (iSIM) and eSIM become mainstream choice for connected devices. Our growing business is on the hunt for a **Software Engineer** to join our server development team.

As part of the Development team, you will be critical to our full set of SaaS solution providing eSIM provisioning services including profile generation, full management of Consumer and IoT eSIM and iSIM. A key element of our role is supporting our customers and working closely with our Platform and Customer onboarding teams to provide a full stack service.

What you will be doing:

- Plan, create, maintain, and deliver applications and services which will be used for the maintain millions of SIM cards worldwide.
- Use test-driven development to create well written, clean, and maintainable code.
- Develop server applications and services in multiple coding languages.
- Opportunities to take charge of your own development and work schedule including creating, maintaining, and reviewing sprints.
- Support for technical customer queries, interacting with clients from all over the world
- Working closely with customers, delivering an excellent customer experience by seeking to understand customer needs and striving to achieve mutually beneficial solutions.

What do we need:

- Demonstrable software engineering experience.
- Excellent knowledge of Java and Object-Orientated programming, as well as a solid understanding of the software development lifecycle (specification, development, test, release, maintenance).
- Working knowledge of version control systems (Git, Bitbucket etc), at least one Java IDE (Eclipse, IntelliJ) and software design patterns.
- Experience working with NoSQL DB technologies (MongoDB etc), HTTPS, REST architecture and SOAP.
- Some experience in Cloud and SaaS technologies, such as Docker, Kubernetes etc, would be a real plus too!
- A real team player who aspires to our core values of: Passion for customer success, Be excellent to all, Think big, act fast.
