

Kigen enable businesses to grow their Internet of Things rapidly through the SIM, eSIM and iSIM technologies and are pushing the boundaries in the industry. Working with a number of high profile customers globally, our growing business is looking for like-minded individuals to join the team.

We have a great opportunity for a number of Project Managers to come and work with our eSIM software teams developing ground-breaking IoT products. You will play a key role in delivering complex and vital projects to our Customers. You and your colleagues will own the customer projects from conception through to final delivery and beyond, ensuring high-quality, on-time, on-spec delivery, and customer satisfaction.

- **What you will be doing:**

- Leading and delivering projects, in close collaboration with Sales, Product Management and Engineering Leads to balance product capabilities, product quality, delivery timescale and budget.
- Main point of contact for customer from project kick-off through service delivery
- Planning and managing deliverables across multiple Kigen teams
- Managing multiple customer projects
- Building and maintaining a credible top-level project plan for delivery, spanning multiple teams & functions. Leading and organizing project execution to fulfill the plan.
- Managing the risks associated with the project and ensuring all stakeholders are kept informed.
- Working creatively and actively to solve problems, resolve issues and minimise risks. Embracing and improving processes.
- Defining meaningful metrics to measure delivery progress and efficiency, followed by developing responses to improve performance.
- Monitoring and reporting project progress compared to the plan and delivering the commitments and benefits promised.

- **What do we need:**

- Experience -
- Project/Delivery Manager with previous software engineer industry experience of successfully delivering software products and services in a changing environment, providing excellent service for our customers
- Experience managing projects with client facing responsibility
- Excellent customer management skills
- Demonstrable commercial project/delivery management experience
- Degree or equivalent, preferably in Science, Technology, Engineering or Mathematics
- Experience with agile and scaled agile methodologies, such as Scrum.
- Competent with tools such as Jira and Confluence
- Familiar with project scheduling tools such as Microsoft Project
- Skills -
- Proficient at building project plans in a timely manner and skilled at identifying, tracking and fulfilling dependencies between engineering teams.
- Excellent communication & presentation skills, enable you to liaise with stakeholders, and to quickly establish positive relationships.

- You demonstrate strong leadership skills, engaging and motivating engineering teams and you enjoy working in a team, having a committed attitude in driving issues through to conclusion.
- You have experience working across multiple time zones.
- You can demonstrate your ability in running multiple interdependent projects.
- You have a deep understanding of, and ability to apply the concepts of risk management.
- You can comprehend technical concepts enabling you to communicate effectively with highly skilled hardware and software engineering teams.
- Excellent written and spoken English skills.
- A real team player who aspires to our core values of: Passion for customer success, Be excellent to all, Think big, act fast.

### **What are Kigen's benefits?**

At Kigen we like to ensure our people are well supported and rewarded for what they do. We offer a competitive salary, annual bonus scheme, substantial annual wellbeing and development allowance, sabbatical, pension scheme and much more! We also think we're a pretty nice bunch of people to work with too.

To apply for the role please send your application to our People Team on [peopleteam@kigen.com](mailto:peopleteam@kigen.com) quoting reference number 0114 or 0115.

We are an Equal Opportunity Employer and do not discriminate against any employee or applicant for employment because of race, colour, sex, age, national origin, religion, sexual orientation, gender identity, status as a veteran, and basis of disability or any other federal, state or local protected class.
