

At Kigen, we are making the future of securing connectivity simple. As simple as can be. Together with our partners and customers, we are at the forefront of unlocking a new era of secure IoT as Integrated SIM (iSIM) and eSIM become mainstream choice for connected devices.

We are very excited to be expanding the team in Noida and as such are looking for a Senior IT Engineer to assist with our data centre set up and ongoing support for the teams at our Noida site.

**What you will be doing:**

- Have responsibility for the system and network infrastructure used by Kigen
- Support end user compute requirements
- You will be deploying and supporting Kigen's on-prem application deployments
- Evaluating, testing, developing and implementing complex technical solutions to address complex business needs
- You will be involved in the development of system and network infrastructure for all Kigen business needs
- Ensure ongoing compliance with agreed standard IT solutions and related security practices

**What do we need:**

- BSc/BEng/MSc/ in Computer Science, Engineering or equivalent experience
- More than 5 years IT support Experience
- Knowledge of Windows/Mac/Linux clients and Network infrastructure
- Excellent knowledge of IT services Including SMTP/DNS/Antivirus/VPN/Patching
- Experience Supporting End user Devices including Windows and MacOS Clients
- Knowledge of Cloud Services such as Office 365, Sharepoint, JIRA, Confluence
- Experience of supporting IT infrastructure such as Vmware stacks, SAN infrastructure and Backups
- Good Knowledge for the support and deployment of Linux operating Systems
- Management of incidents, problems or service requests
- Technical Experience in some of the following services DNS, LAN/WAN, VLANs, SMTP, VPNs
- Scripting Languages such as Python/Bash/Powershell
- Strong teamwork and communication skills
- Excellent problem solving capabilities
- Ability to manage multiple tasks and deadlines
- It would also be useful if you had experience with Cisco, network security and vulnerability management systems.
- Some experience of deployment of a colo data centre would also be beneficial.
- A real team player who aspires to the idea of our core values of: Passion for customer success, Be excellent to all, Think big, act fast.
